

The products and services described below are neither offered nor guaranteed under our contract with the Medicare program. In addition, they are not subject to the Medicare appeals process. Any disputes regarding these products and services may be subject to the AARP® MedicareRx Enhanced (PDP) plan, insured through UnitedHealthcare, grievance process.

AARP® MedicareRx Enhanced (PDP) Plus Drug Discounts Program

Save 15%–55%¹ on prescription drugs not normally covered by Medicare Part D.

As a member of the AARP MedicareRx Enhanced (PDP) plan, insured through UnitedHealthcare, you may save an average of 30%¹ on most prescription drugs that are not normally covered by Medicare Part D. Discounts are available on thousands of commonly used brand-name and generic prescription drugs. For example, you can get discounts on medications used for weight loss, erectile dysfunction (ED), insomnia and anxiety, as well as prescription vitamins and prescription cough and cold medications. Discounts are not offered for over-the-counter medications.

Using the Plus Drug Discounts program is easy.

To receive your discount at the pharmacy counter, simply show your existing AARP MedicareRx Enhanced (PDP) plan member ID card at a participating network pharmacy when you purchase a prescription. You will be charged the discounted rate for your prescription.

Almost all of the 60,000 network pharmacies participate in the program. In most cases, you will be able to receive your discount at the network pharmacy you are currently using. To find out if your pharmacy participates, please call UnitedHealthcare Customer Service at the number listed below or on the back of your AARP MedicareRx Enhanced (PDP) plan member ID card. You can also ask your pharmacist.

On the following pages is a partial list of prescription drugs that are eligible for discounts under the Plus Drug Discounts program. This list of drugs may change throughout the year. If your drug is not included on this partial list, please call UnitedHealthcare Customer Service at the number listed below to determine if your specific drug is eligible for a discount under the Plus Drug Discounts program.

A UnitedHealthcare® Medicare Solution

¹ This program provides discounts off the full retail price of prescription drugs not normally covered by Medicare Part D. Program prices are subject to change and may vary by network pharmacy.

The Plus Drug Discounts program is a prescription drug discount program, not a plan benefit. The drug costs and savings received through this program will not appear on your monthly Explanation of Benefits (EOB) statement. The drug costs for these prescriptions do not affect your progress up to or through the coverage gap.

This Medicare Prescription Drug Plan (PDP) is insured by UnitedHealthcare Insurance Company or UnitedHealthcare Insurance Company of New York for New York residents (together called UnitedHealthcare™).

AARP® MedicareRx Plans carry the AARP name, and UnitedHealthcare pays a fee to AARP for use of the AARP trademark. Amounts paid are used for general purposes of AARP and its members. AARP is not the insurer. UnitedHealthcare contracts with the Federal government as a PDP sponsor.
