

## **STOP Government Controlled Health Care**

Health Care is under attack, we could lose our livelihood as we know it! We need your help to stop Government Controlled Health Care, please go to [www.NotInTexas.org](http://www.NotInTexas.org) and sign up to Become a Member (no cost!) and electronically sign the petition (ask your clients to get involved also).

I am writing to ask for your support against what is developing in our Nation's Capital: Government Controlled, Single Payer Socialized Health Care. You "as an American Citizen" are about to lose the freedom of your current health care system if you "as an agent" do not rally against this horrible possibility.

Along with a group of Texas based professional health insurance agents, we have formed a non-profit organization called "**[The Alliance of Texans Against Government Controlled Healthcare](#)**".

**Our objective:** to assist with having Texas reject the national healthcare platform being crafted behind the closed doors in Washington D.C. You may not be aware, but as a state, we do not have to follow the Federal Government in health care related matters, therefore we can "secede" from the proposed government controlled health care system (Tenth Amendment of the United States Constitution).

Our strategy will be outlined for your consideration this **Thursday, May 21st** . We have scheduled two information sessions; the first will begin at **11:30** and the second will begin at **1:30**. You must RSVP, because the room will only hold 40 people and we are not sure how big this could get, but the possibility of it being crowded is very real.

**Location: Grapevine Palace Arts Center, 300 Main St, Grapevine TX (817) 410-3541 ( [Click here for map](#) )**

Additional locations & dates to be announced.

At this rally, we are going to provide you with talking points, letters to give your clients, our media strategy, and more. We have just established a website at [www.NotInTexas.org](http://www.NotInTexas.org) , please sign up and make a difference.

We have developed aggressive plans to make this become a statewide initiative, but we cannot do this without your support. Please come and hear what we are going to accomplish and decide if you want to support our alliance, or settle for a Government Controlled health care system. If you have media contacts, I would appreciate the contact info so that I may extend an invitation to attend.

On May 27th I have scheduled a meeting with [TDI Commissioner Mike Geeslin](#) and his staff to outline our strategy and ask for their support. In this meeting we would like to carry your voice and offer you a seat at the table. Our message is "Texans will not allow our freedoms to be taken away. We do not want socialized medicine in Texas."
