

As reported on May 1, 2009 WellCare received the Initial Enrollment Period (IEP) files from CMS to process the 2nd half of the first year commission for all applicable new enrollments. Recently, we were notified by CMS that the file they sent in May was in error and they have since forwarded a corrected file. Currently the new file is being processed, and if the data is accurate, payments will be released at the end of this month.

Please note that 2nd half of the PFFS and PDP IEP compensation will be paid as a lump payment for commission owed up to the current month of June. The remainder of this PFFS and PDP commission will be paid on a monthly as-earned basis, per the WellCare announcement dated May 20, 2009.

CCP compensation will continue to be paid on an annualized basis upfront.

Thank you for your patience,

Kevin A. LeBlanc
